

AN INTERACTIVE DIGITAL CINEMA
FOR VIRAL FILMS

WHAT IS KINO?

KINO is an app that lets you enjoy a Hollywood premiere from the comfort of your home. You're not just watching the movie before it hits streaming; you're also interacting with the stars themselves. **No one else does this.**

KINO's interactive dual-screen experience lets you watch the film on your Smart TV... while using your mobile device to submit questions, enter giveaways, and participate in a live Q&A after the show!

FILM LOVERS LOVE KINO.

My new favorite streaming app

★★★★★

This is my new favorite streaming app! It feels like I'm at a Sundance screening, but from the comfort of my own sofa. I feel like I have a backstage pass for every movie they screen. I also love that more money goes directly into the hands of the filmmakers. This is exactly the kind of streaming service we need right now!

The closest you can get to the process.
★★★★★

This is an amazing opportunity for anyone who wants to be closer to the process, behind the scenes and gives a true connection to the process. Also, there are a ton of perks that you can win.

Finally!!

Finally all my favorite things about film in one place - excited to see where this app/ community goes. Really digging it so far. I love that we get to hear from positions in film that don't typically get interviewed. Excited to learn about sound mixing more.
