# *making a difference for the Valley...*

Because of you, 2021 was a year to remember. We secured a major naming gift for the Arizona Burn Center at Valleywise Health, successfully launched our mentorship program Emerging Leaders including our first NFT drop and broke fundraising records at A Night in the Valley, our largest annual philanthropic event of the year.

Your gifts directly impacted countless patients, programs and healthcare warriors at Arizona's public teaching health system. Community is at the heart of all we do and your support of the Valleywise Health mission helps improve the health of the Valley year after year.

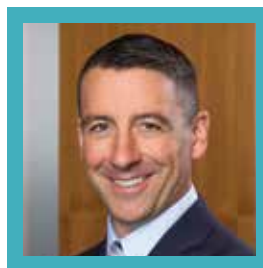

In 2021, YOU helped our Foundation...

- Provide \$7.2 million for new Valleywise Health facilities and equipment - including \$5 million specifically for the new Arizona Burn Center at Valleywise Health,
- Support medical education programs by outfitting our new facilities with critical equipment for training, wound care, women's health and more,
- Secure a \$2.5 million unrestricted grant from Virginia G. Piper Charitable Trust to address ongoing COVID-19 and other emergency needs,

- Support critical patient care for those unable to pay by addressing food insecurity, helping children prepare for school, distributing COVID-19 vaccines and more,
- Provide funding to address staff shortages, support employee morale and provide emergency assistance to Valleywise Health employees through our Employee Helping Hands program,
- Fund 2,500 backpacks for our Family Resource Centers so children throughout the Valley have school supplies they need to succeed,
- Support continuing education at Valleywise Health, a critical component of who we are as an academic health system,

You made this possible. From longtime supporters to our first-time event participants, we're building a healthier Arizona, together.

*All In.*

Nate Lowrie

Valleywise Health Foundation

# your impact

// **I can't think of an injury that competes with the immediate and long-term pain of a burn...**

The pain doesn't end when the patient checks out. In many cases, the injury results in long-term lifestyle changes and requires an immense amount of physical, emotional and financial support for the survivor and their family. **To this day, the support we receive from Valleywise Health and the burn community is absolutely priceless."**

**Connor and Christina Cornils**  
Burn Survivor and  
Newlywed Couple

// **We just arrived in Phoenix a few months ago and my wife is expecting a baby.**

Since we just arrived, we have no income, so the Valleywise Refugee Health Services team is helping us a lot. Inside the clinic, we get our labs and medicine and translators can speak with us in our own language. **I am grateful for their services and for everyone working with Valleywise Health and the Foundation. We all want our children to grow up in a good country. That was my hope... and today it came true."**

Afghan refugee family and  
patients of Valleywise Health

### **The Lampley family**

Tatiana, Angela, Lemone,  
Elise and Lemone Jr.

**I was introduced to the Family Resource Center a little over eight years ago before my son George was born...** I started going to the mommy-to-be classes, which helped me prepare to become a parent. After he was born, we participated in story time, the car seat program and the annual backpack event. We've attended several of the "Raising a Reader" classes and now... my son George loves to read. He carries a book from the Family Resource Center everywhere he goes. Now his little sister, Jocelyn, wants to read just like her big brother.

When you have kids, everything helps. Car seats and backpacks not only set my kids up for success, but also help my family financially. Every bit counts and everything donated is appreciated."

**We didn't have the information or experience about how to deal with my daughter's health crisis, but once we were referred to the First Episode Center at Valleywise Health and saw the work they do, we knew Elise was in the right place. At the First Episode Center, it's not just one person taking care of your loved one, they have a team that works together. They showered my daughter with love along with the medical intervention she needed.** I cannot say enough good things about what they've done for my daughter and for us as a family."

# 2021 milestones

*In September, Valleywise Health Foundation was awarded a \$2.5 million unrestricted grant by Virginia G. Piper Charitable Trust to support the mission of Valleywise Health, Arizona's public teaching health system, as it navigates COVID-19 and other critical needs. Piper Trust awarded \$123 million in surprise grants to 71 Maricopa County nonprofits, the largest single-day grant initiative in Arizona history.*

*In 2021, Valleywise Health Foundation launched Emerging Leaders, a mentorship program focused on philanthropy and community health, with its inaugural class launching an NFT fundraiser making Valleywise Health Foundation one of the first healthcare nonprofits accepting crypto donations.*

*Valleywise Health Foundation exceeded its \$25,000 fundraising goal and received record in-kind donations of approximately \$14,000 in our annual Backpack Drive. Through your support, Valleywise Health provided backpacks filled with school supplies to 2,500 students through the seven Valleywise Health Family Resource Centers.*

*A Night in the Valley, our largest annual philanthropic event, returned outdoors and in-person at The Farm at South Mountain on October 16 and broke fundraising records, with more than \$735,000 gross raised for pediatric care at the new Halle Arizona Burn Center at Valleywise Health.*

# Valleywise Health Foundation Receives Major Grant

for Naming of the New Arizona Burn Center at Valleywise Health

**Valleywise Health Foundation is thrilled to announce it has received major grant funding from the Diane & Bruce Halle Foundation to support naming of the Diane & Bruce Halle Arizona Burn Center**, currently under construction as part of the new 10-story Valleywise Health Medical Center, scheduled to open in late 2023.

"A new burn center has been a long time coming," said Dr. Kevin Foster, Director of the Arizona Burn Center at Valleywise Health. "With the support of the Halle Foundation, this will not just be a new facility, but a new way of caring for patients. This will be the premier burn center in the country."

Established in 1965 under the leadership of the late Dr. MacDonald Wood, the Arizona Burn Center was recognized in 2000 by the American Burn Association and the American College of Surgeons' Committee on Trauma with its highest level of burn care recognition under the leadership of the late Dr. Dan Caruso. Since that time, the Arizona Burn Center has been nationally verified six times and remains Arizona's only nationally verified adult and pediatric burn center.

Treating some of the most complex and traumatic burn and wound cases, the Arizona Burn Center at Valleywise Health is one of the nation's largest and busiest academic burn centers with 5,000 outpatient visits and more than 1,000 inpatient admissions each year. Serving the entire Southwest region, this renowned center for innovation, research and world-class clinical burn care has excelled in facilities built in 1971, not designed for the unique needs of burn and wound care patients.

"We look forward to putting this impactful gift from the Diane & Bruce Halle Foundation to work," said Valleywise Health CEO Steve Purves. "Our world-class team will now have the modern, progressive facilities to match their level of care, and the ability to maximize both the acute and long-term physical and psychosocial needs of burn survivors continuing their recovery."

The new 75,000 square-foot Diane & Bruce Halle Arizona Burn Center was designed from both the patient's and clinician's perspective bringing the functions and features of burn care excellence into one location.

The design philosophy and physical layout will foster a sense of safety, openness, collaboration, and peer support in recovery and responsiveness – which are key in addressing the trauma associated with burns – as well as a patient’s long-term recovery. The single-floor evidence-based design will allow all members of the burn care team to easily interact. Other new features include a dedicated pediatric wing, family support rooms, space for research and teaching and more.

The Diane & Bruce Halle Foundation works with community organizations to strengthen the daily opportunities and the lifelong outcomes for the people and communities in the state of Arizona. The organization currently supports human services, health and medical, education, arts and culture and spirituality for underserved populations and communities through grantmaking. The Foundation provides grants to hospitals,

access to medical care, medical research projects and facilities, as well as organizations that provide dental, vision and other medical services to populations with the greatest needs.

“The Halle Family Foundation Board Members realize the devastation and pain related to burn patients and we are inspired to help,” said Diane Halle. “May this grant allow the Arizona Burn Center team to provide a safe and supportive healing environment for burn patients and their families. We are proud to support the next chapter of burn care excellence at Valleywise Health.”

“Immense gratitude to the Halle family and the Diane & Bruce Halle Foundation for this historic gift that will raise the bar for lifelong burn survivorship care in Arizona and the Southwest region for generations to come,” said Mary Rose Wilcox, Chairman of the Maricopa County Special Healthcare District board of

directors. “Heartfelt thanks to Dr. Kevin Foster and the late Dr. Dan Caruso who led the Arizona Burn Center’s growth since 1999. Theirs is a legacy reflected in this monumental gift.”

“As a burn survivor and recipient of the expert care provided at the Arizona Burn Center, I have a very personal perspective of the importance of this generous gift from the Diane & Bruce Halle Foundation and the lives it will impact,” said Valleywise Health Foundation Board Chair John Hoopes. Many may not know the public health mission of Valleywise Health includes a center of excellence in burn care until they need it, like I did. This investment recognizes the importance of that mission and will provide our clinicians the facilities they need to lead nationally and internationally and give burn patients access to a range of world class care as they recover and thrive.”

# *stepping up to* **THE NEED**

Thanks to you, our community supporters, corporate partners and organizations, we accomplished a record year of fundraising and philanthropic support for Valleywise Health.

## 81% Care Reimagined - Equipment, Technology and New/Renovated Facilities

In February 2021, Valleywise Health held their Topping Out ceremony for the historic placement of the final beam for the new acute care hospital. The new Valleywise Health Medical Center is scheduled to open in late 2023.

## 9% Education/Training

First year resident Dr. Jacqueline Lykstad shares about her experience doing her surgical residency as part of the Creighton University Arizona Health Education Alliance at Valleywise Health. Thanks to Foundation support, she and other residents receive world-class training and education.

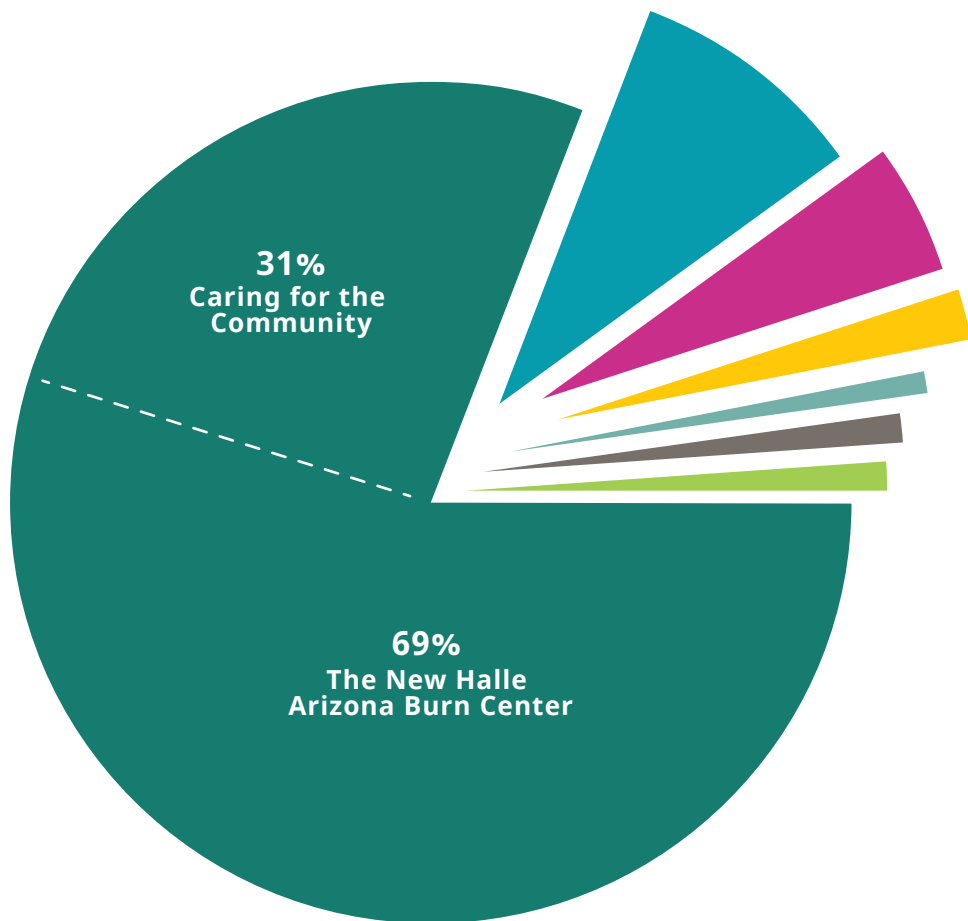

## 1% Burn Survivorship

In 2021, young burn survivors Isla and Westyn were treated at the Halle Arizona Burn Center at Valleywise Health. Thanks to the compassionate care they received, they both have returned home and are well on their way to recovery.

# people inspiring philanthropy...

Bryan Jeffries

President - Professional Firefighters of Arizona  
Valleywise Health Foundation Board Member

Knowing Valleywise Health exists is critical because we are a community. **It's important to know that our neighbors, on the worst days of their lives, will receive top-level care, regardless of their ability to pay.** Philanthropic support to provide that care is critical. I am a donor and I'm so proud to be on the board. My family gives every year because we are so proud of the mission."

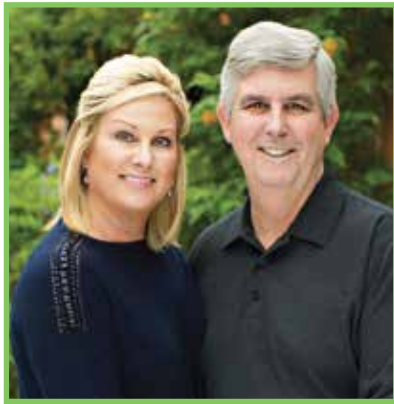

Kirsten and Charles Brown

Valleywise Health Foundation Board Member  
and Emerging Leaders Mentor

**We care about Valleywise Health's overall mission.** Being able to provide all communities quality healthcare is vitally important and Valleywise is doing an excellent job at that. Our family chose to support and become a part of that mission because this is where our hearts are. Sadly, there are a lot of discrepancies in the healthcare system so leveling the playing field and providing great healthcare in underserved communities is massively important to our family because we are products of that community."

Kathleen and John Graham  
ALL IN Campaign Cabinet Members

**The entire Graham family stands firmly behind the mission of Valleywise Health...** as they deliver truly exceptional care to every single patient who walks in their doors. The world-class care delivered every day along with their mission to train future doctors is essential to the continued health of our community. We are excited about the future of Valleywise Health and would love for others to join us in supporting the forward movement."

Reine and Eric Hamilton  
Emerging Leaders Mentor

**Giving is at the heart of what we do and who we are as a family.** We all come from different walks of life and along our journey, we learn that one of life's biggest joys is in helping others and giving back in every way we can. The pandemic was just another reminder as to how critically important it is for us to come together as a community and provide support and access to quality healthcare for those who need it most. Whether it's providing emergency relief, access to medical equipment, or supporting our frontline providers who are caring selflessly for every single patient to provide them the medical care they need without barriers, these are few of the many reasons why we chose to support Valleywise Health Foundation. It's our way to pay it forward.

Thank you Valleywise for the incredible work you do in serving our communities."

# healthcare warriors

---

## inspiring philanthropy...

In July 2021, we launched the Leave Your Mark challenge, an opportunity for Valleywise Health, District Medical Group and Compass One Healthcare employees to celebrate the legacy that Valleywise Health has created for nearly 150 years, while honoring the future of the health system for years to come.

**My inspiration for leaving my mark on Valleywise Health was how blessed I feel to be with the families who have lost a loved one.**

Spending time with the patients' families, I feel their sorrow and how grateful they are that Valleywise Health provides compassionate care and wonderful programs for families in need."

**Patricia Orzabal**

Anatomic Pathology Coordinator  
Valleywise Health

**I'm thankful for the opportunity to leave my mark on the health system because it directly impacts Care Reimagined and helps increase the level of patient care we give to our community.**

It's an opportunity for me to not only support the infrastructure but to encourage people to support the health system as a whole."

**Joel Altamirano**

Senior Systems Engineer  
Valleywise Health

I remember as a case manager walking into the psych annex in the mid 1990s thinking 'I'd like to work here someday.' I went and got my M.S.W. and came back in 1999 - I have been with Valleywise Health for 22 years. I have seen a lot of changes over the years, but one thing that hasn't is the staff's dedication to our population, which I have always enjoyed being a part of and hope to continue to do so until I retire. **I appreciate Valleywise Health's commitment to the underserved population and I contribute to Valleywise Health Foundation to support this mission. Lower socioeconomic status should never mean lower quality care or less access to care.**"

**Amie Kafer, DO**

Psychiatrist  
District Medical Group  
Valleywise Behavioral Health Center - Mesa

Alone we can do so little.  
Together we can do so much.

HELEN KELLER

To passionately and proactively take on the Valley's most critical health care needs – and to care for our neighbors with nowhere else to turn – **we need community support.** Our Legacy Circle members are valued and impactful.
